INDEX TO VOLUME LVIII

SUBJECTS

PAGE

Absorption Bands in the Near Infra-Red, Note on the Formulation of. *W. F. Colby* 303
Air, Excitation Stages in the Open Arc-Light Spectrum of. *B. E. Moore* 104
Aluminum in the Extreme Ultra-Violet, Arc and Spark Spectra of. *R. O. Hutchinson* 280
9 Argus, On the Double Star. *Otto Struve* 141
9 Argus, On the Double Star. A Correction. *Otto Struve* 313
Atmosphere, On the Cosmic Origin of the Radioactive Substances in the. *Hermann Bongards* 307
Atoms, Relation between the Spectra and the Sizes of the Alkali Metal. *Louis A. Turner* 176
Barnard, Edward Emerson. *Edwin B. Frost* 1
Carbon in the Extreme Ultra-Violet, Arc and Spark Spectra of. *R. O. Hutchinson* 280
T Cephei, Spectrographic Observations of. *Edwin B. Frost* and *Frances Lowater* 265
Mira Ceti, Spectrographic Observations of. *Edwin B. Frost* and *Frances Lowater* 265
Contributors, Notice to 64
Correction. On the Double Star 9 Argus. *Otto Struve* 313
CG Cygni, Light-Curve and Orbit of. *Ch'ing-Sung Yü* 75
e/m from Measurements of the Zeeman Effect, A Determination of. *Harold D. Babcock* 149
Eclipse of September 10, 1923, Note on the Solar 263
Electrodes Mixed. Excitation Stages in the Open Arc-Light Spectra. *B. E. Moore* 104
Erratum 313
Errors with the Thermo-Electric Photometer, Investigations of Plate. *Harlan True Stetson* and *Edwin F. Carpenter*. 36
Focal Changes in Mirrors. *Edison Pettit* 208
SZ Herculis and RS Vulpeculae, Photometric Studies of. *Raymond S. Dugan* 164
Hydrogen, Excitation Stages in the Open Arc-Light Spectrum of. *B. E. Moore* 104
Hydrogen Balmer Series and the Impossibility of Further Corrections to the Quantizing of Hydrogenic atoms. *Arthur E. Ruark* . . . 46
Index to Vols. XXVI–L, Notice of General 316

PAGE

Infra-Red, Note on the Formulation of Absorption Bands in the Near. *W. F. Colby* 303
Lead, Excitation Stages in the Open Arc-Light Spectrum of. *B. E. Moore* 86
R Leonis, Spectrographic Observations of. *Edwin B. Frost* and *Frances Lowater* 265
Light-Curve and Orbit of CG Cygni. *Ch'ing-Sung Yü* 75
Magnesium, Excitation Stages in the Open Arc-Light Spectrum of. *B. E Moore* 86
Mercury, Excitation Stages in the Open Arc-Light Spectrum of. *B. E. Moore* 86
Metal Atoms, Relation between the Spectra and the Sizes of the Alkali. *Louis A. Turner* 176
Mirrors, Focal Changes in. *Edison Pettit* 208
Note on the Solar Eclipse of September 10, 1923 263
Notice of General Index to Volumes XXVI–L 316
Notice to Contributors 64
Orbit of CG Cygni, Light-Curve and. *Ch'ing-Sung Yü* 75
Photometer, Investigations of Plate Errors with the Thermo-Electric. *Harlan True Stetson* and *Edwin F. Carpenter*. 36
Photometric Studies of SZ Herculis and RS Vulpeculae. *Raymond S. Dugan* 164
Photospheric Layers, On the Radiation and Temperature of the External. *Ragnar Lundblad*. 113
Planetary Temperatures, Water-Cell Transmissions and. *Donald H. Menzel* 65
Plate Errors with the Thermo-Electric Photometer, Investigations of. *Harlan True Stetson* and *Edwin F. Carpenter*. 36
Pressure Effect. Excitation Stages in the Open Arc-Light Spectra. *B. E. Moore* 104
Quanta, Molecular Spectra and Half-. *E. F. Barker* 201
Radiation and Temperature of the External Photospheric Layers. *Ragnar Lundblad*. 113
Radioactive Substances in the Atmosphere, On the Cosmic Origin of the. *Hermann Bongards* 307
Review:
Newcomb-Engelmann's Populäre Astronomie, Sechste Auflage, edited by H. Ludendorff, with the co-operation of G. Eberhard, E. Freundlich and A. Kohlschütter. *Edwin B. Frost* 314
Series and the Impossibility of Further Corrections to the Quantizing of Hydrogenic Atoms, Hydrogen Balmer. *Arthur E. Ruark* 46
R Serpentis, Spectrographic Observations of. *Edwin B. Frost* and *Frances Lowater* 265
Solar Eclipse of September 10, 1923, Note on the. 263

PAGE

Spectra, Excitation Stages in the Open Arc-Light. *B. E. Moore*:
Part III 86
Part IV 104
Spectra. Two Stars having Variable Bright Lines. *Otto Struve* . . 138
Spectra and Half-Quanta, Molecular. *E. F. Barker* 201
Spectra and the Sizes of the Alkali Metal Atoms, Relation between the. *Louis A. Turner* 176
Spectra of Aluminum, Zinc, and Carbon in the Extreme Ultra-Violet, Arc, and Spark. *R. O. Hutchinson* 280
Spectra of Stars of Class Me, Wave-Lengths of Lines in the. *Paul W. Merrill* 195
Star 9 Argus, On the Double. *Otto Struve* 141
Star 9 Argus, On the Double. A Correction. *Otto Struve*. . . . 313
Stars of Class Me, Wave-Lengths of Lines in the Spectra of. *Paul W. Merrill* 195
Stars having Variable Bright Lines, Notes on Two. *Otto Struve* . . 138
Temperature of the External Photospheric Layers, Radiation and. *Ragnar Lundblad*. 113
Temperature Scales, An Intercomparison of. *W. E. Forsythe* . . . 294
Temperatures, Water-Cell Transmissions and Planetary. *Donald H. Menzel* 65
Thallium, Excitation Stages in the Open Arc-Light Spectrum of. *B. E. Moore* 86
Ultra-Violet, Arc and Spark Spectra of Aluminum, Zinc, and Carbon in the Extreme. *R. O. Hutchinson* 280
Ultra-Violet, Wave-Length Standards in the Extreme. *J. J. Hopfield* and *S. W. Leifson* 59
Variable Stars, Radial Velocities of Long-Period. *Paul W. Merrill*. . 215
Velocities of Long-Period Variable Stars, Radial. *Paul W. Merrill*. . 215
RS Vulpeculae, Photometric Studies of SZ Herculis and. *Raymond S. Dugan* 164
Water-Cell Transmissions and Planetary Temperatures. *Donald H. Menzel* 65
Water-Vapor, Excitation Stages in the Open Arc-Light Spectrum of. *B. E. Moore* 104
Wave-Length Standards in the Extreme Ultra-Violet. *J. J. Hopfield* and *S. W. Leifson* 59
Wave-Lengths of Lines in the Spectra of Stars of Class Me. *Paul W. Merrill* 195
Zeeman Effect, A Determination of e/m from Measurements of. *Harold D. Babcock* 149
Zinc in the Extreme Ultra-Violet, Arc and Spark Spectra of. *R. O. Hutchinson* 280

INDEX TO VOLUME LVIII

AUTHORS

PAGE

BABCOCK, HAROLD D. A Determination of e/m from Measurements of the Zeeman Effect 149

BARKER, E. F. Molecular Spectra and Half-Quanta 201

BONGARDS, HERMANN. On the Cosmic Origin of the Radioactive Substances in the Atmosphere 307

CARPENTER, EDWIN F., and HARLAN TRUE STETSON. Investigations of Plate Errors with the Thermo-Electric Photometer 36

COLBY, W. F. Note on the Formulation of Absorption Bands in the Near Infra-Red 303

DUGAN, RAYMOND S. Photometric Studies of SZ Herculis and RS Vulpeculae 164

FORSYTHE, W. E. An Intercomparison of Temperature Scales . . 294

FROST, EDWIN B. Edward Emerson Barnard 1

Note on the Solar Eclipse of September 10, 1923 263

Review of: *Newcomb-Engelmann's Populäre Astronomie, Sechste Auflage*, edited by H. Ludendorff, with the co-operation of G. Eberhard, E. Freundlich, and A. Kohlschütter 314

FROST, EDWIN B., and FRANCES LOWATER. Spectrographic Observations of Mira Ceti, R Leonis, T Cephei, and R Serpentis 265

HOPFIELD, J. J., and S. W. LEIFSON. Wave-Length Standards in the Extreme Ultra-Violet 59

HUTCHINSON, R. O. Arc and Spark Spectra of Aluminum, Zinc, and Carbon in the Extreme Ultra-Violet 280

LEIFSON, S. W., and J. J. HOPFIELD. Wave-Length Standards in the Extreme Ultra-Violet 59

LOWATER, FRANCES, and EDWIN B. FROST. Spectrographic Observations of Mira Ceti, R Leonis, T Cephei, and R Serpentis . . . 265

LUNDBLAD, RAGNAR. On the Radiation and Temperature of the External Photospheric Layers 113

MENZEL, DONALD H. Water-Cell Transmissions and Planetary Temperatures 65

MERRILL, PAUL W. Wave-Lengths of Lines in the Spectra of Stars of Class Me 195

Radial Velocities of Long-Period Variable Stars 215

MOORE, B. E. Excitation Stages in the Open Arc-Light Spectra:

Part III. Lead, Mercury, Thallium, Magnesium 86

Part IV. Hydrogen, Air, Water-Vapor, Pressure Effect, Mixed Electrodes 104

PAGE

PETTIT, EDISON. Focal Changes in Mirrors 208

RUARK, ARTHUR E. Hydrogen Balmer Series and the Impossibility of Further Corrections to the Quantizing of Hydrogenic Atoms . . 46

STETSON, HARLAN TRUE, and EDWIN F. CARPENTER. Investigations of Plate Errors with the Thermo-Electric Photometer 36

STRUVE, OTTO. Notes on Two Stars having Variable Bright Lines . 138

On the Double Star 9 Argus 141

On the Double Star 9 Argus. A Correction 313

TURNER, LOUIS A. The Relation between the Spectra and the Sizes of the Alkali Metal Atoms 176

YÜ, CH'ING-SUNG. Light-Curve and Orbit of CG Cygni 75
